

## List of Apps and Online Resources for Language Teaching and Learning

Many of these Apps are free

### Animation

**Yakit Kids** Use this iPhone/iPad app to make a photo talk. Screenshot or use an image/photo, add that image to Yakit Kids, add some facial features, then record text. Great oracy aid for assisting children to explain their understanding of a topic <https://itunes.apple.com/gb/app/yakit-kids/id794546203>

**Puppet Pals HD** Make and record a puppet show with animation and audio, actors and backdrops. Users drag these on to the stage and their movements and audio will be recorded in real time for playback later. <https://itunes.apple.com/gb/app/puppet-pals-hd/id342076546>

### Audio/Video apps/websites

**Voice Record Pro** is a professional voice recording app on Mac. Use it to record voice memos and sounds in a range of formats: MP4 (AAC), MP3 (MPEG) and WAV (PCM). You can also edit these sound files. <https://itunes.apple.com/gb/app/voice-record-pro/id546983235>

**iPadio** is an easy way to create and share audio. It allows you to play your recordings back, as well as download, edit, or delete them. You can also share your recordings with another person or people. You can do this in the app or on the website. You will be asked to register a mobile phone number. You can just put in a bogus number for this. <https://ipadio.soft112.com/>

**Educreations** “is an online community where anyone can teach what they know and learn what they don't.” using audio and video <https://www.educreations.com/>

**Tellagami** is an animation app in which you create and share quick animated videos (known as Gami). A Gami can be a fun way to tell a story, message, postcard or share photos. Users customise their character, choose a background, record their voice or type a text for the character to speak. Share your Gami via social media, text or email  
<https://itunes.apple.com/gb/app/tellagami/id572737805>

**Visioprompt** Enter texts into this app and play them with the Tele-Prompter. Useful for video production, presentations, training, any type of speaking events etc.  
<https://itunes.apple.com/gb/app/visioprompt/id454219421>

**Adobe Spark** – make videos, memes, newsletters etc. <https://spark.adobe.com/>

**YouTube Capture** A video app where users can record and upload directly to YouTube and social networks directly from an iPhone or iPad running iOS 5 and above.  
<https://itunes.apple.com/gb/app/youtube-capture/id576941441>

**30Hands** Use this app solo or in a team to tell a story, explain a concept, produce a video  
<https://itunes.apple.com/gb/app/30hands-digital-storytelling/id605013231>
